

## Precoiled PipeMarkers

BG Label's Wrap around pipemarkers are pre-coiled so they snap into place and stay. All wraps are printed with UV ink for an outdoor life of 5-8 years and are ASME standard compliant. These markers can be used on all pipes but are especially tailored for pipes that are wet, cold, oily, and/or rusty.

We carry four background colors that are standard, can have them say what you need, and have a size that will fit your labeling needs. Below is a size chart to help decide what sizes you will need.
